Staffordshire Treatment and Recovery Service

The Hospital Alcohol Liaison Team (HALT) is an alcohol recovery service provided within the STARS service based in North Staffordshire, at John O Gaunt.

We aim to help as many people as possible who have been admitted to hospital due to alcohol use. We strive to reduce the harm that alcohol use can cause to individuals, families, and communities.

We work hard to reduce reoccurring hospital admissions by providing an intensive outreach community support package.

We offer access to experienced and professional teams who work with you on your journey to recovery from alcohol.

When you join the service, you will be allocated a care co-ordinator who will support you throughout your treatment and help you develop a Recovery Plan, that's built around you and your circumstances.
